

How do I Make Content Viewable to a Student Only After They have Achieved a Minimum Grade on an Assessment?

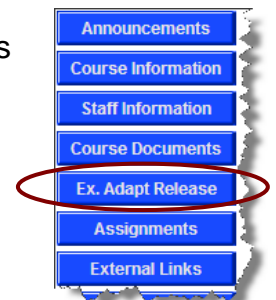

This tip sheet will show you how to create a basic rule that will allow you to restrict access to an item in your course until the student has successfully achieved a minimum grade on an assessment also in your course.

Adding the Initial Assessment (Normal Process for Posting an Assessment)

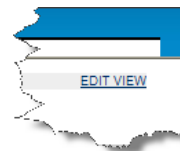

NOTE: For demonstration purposes, we are adding an existing test. For more details about adding existing tests or for creating new tests, view the tip sheets specific to these topics:

- Creating a New Test: <http://bbsupport.wcpss.net/instructor/bb-test-new-create.pdf>
- Adding an Existing Test to My Course: <http://bbsupport.wcpss.net/instructor/bb-test-existing-add.pdf>

1. While in your Blackboard Course, click on the **main menu item** (buttons on the left of the page) where you would like the assessment housed.

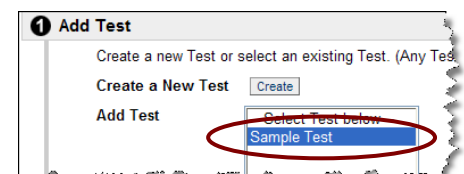

2. Click the **Edit View link** in the upper right corner.

3. Click the **Add Test button**.

4. Click on the **name of the test** the students must take in the Add Test area.

5. Click **Submit**.

6. Click **OK** to continue.

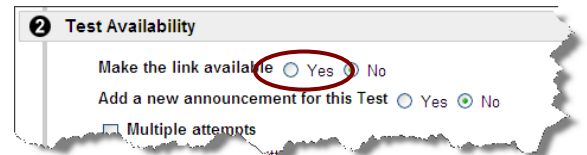

Blackboard

Adaptive Release – Achieve Score

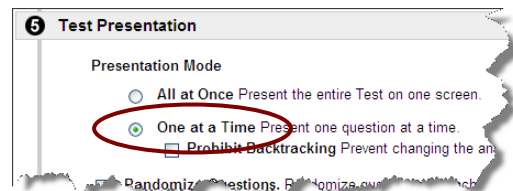

7. Click the **Modify the Test Options** link.

8. Click the **Yes radio button** to make the test available for completion.

9. Click the **One at a Time radio button**.

10. Click .

11. Click .

12. Click again.

The test has now been made available. The next step is to add the document that you would like for them to see once they have successfully completed the assessment.

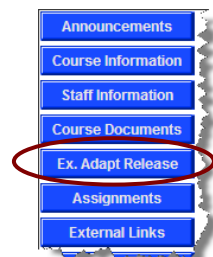

Adding the Item that will be Restricted

At this point you will go through the normal steps to add an item to your course. For assistance with this process, please review the tip sheet called "How do I Add Information to My Course?" <http://bbsupport.wcpss.net/instructor/bb-content-add.pdf>.

Adding Rules to the Item

You will now need to set restrictions so that the item will not appear until the student has achieved a minimum score on the test above.

1. While in your Blackboard Course, click on the **main menu item** where the hidden item is housed.

Blackboard Adaptive Release – Achieve Score

2. Click the **Edit View** link in the upper right corner.

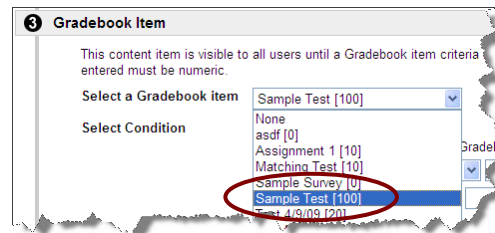

3. Click **Manage** to the right of the item you would like to hide.

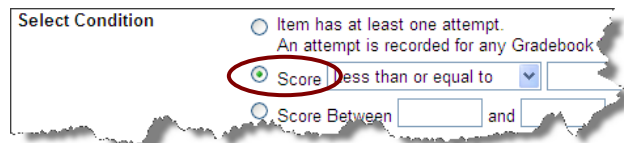

4. Click the **Adaptive Release** link.

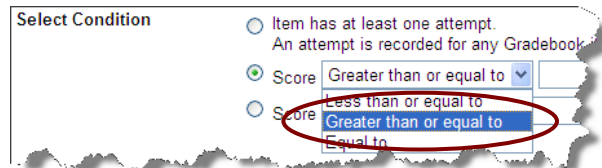

5. Under **Gradebook Item**, choose the test the students must complete.

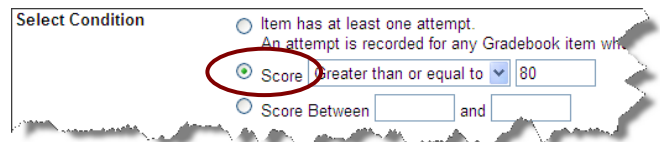

6. Click the **radio button** for the second option.

7. Choose **Greater than or equal to**.

8. Enter **a score** that must be attained before the student can move on to the next item.

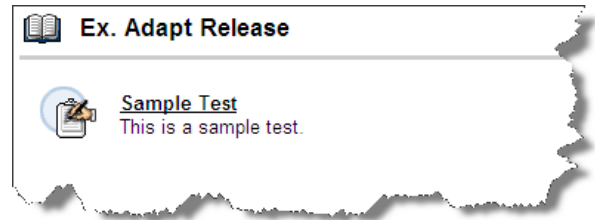

9. Click **Submit**.

10. Click .

11. Click  again.

What Students will see...

When students first access the area of your Blackboard course containing the test and restricted document, they will only see the test.

The restricted document will become visible to that student once they successfully achieve the minimum score required on the test.
