

How do I Change Information in My Course?

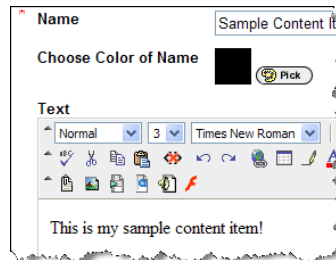

1. While in your Blackboard Course, navigate to the content item to modify using the course menu.
2. Click the Edit View in the upper right portion of the screen.

3. Click the **Modify** button to right of the item you want to change.

4. You can now make modifications to any of the data included in the content item.

5. If you need to modify an attached file click the **Modify** button to change the file details or click the **Remove** button to remove the file.

- The easiest way to update a file is to click the **Remove** button and then upload a new file in the same way you uploaded the original one.
