

How do I Create a Survey?

Adding Surveys works just like adding a Blackboard assessment to your course. The difference is that the user is not graded or recorded, just the responses.

1. While in your Blackboard Course, click on the content area where you would like the survey to be housed.
2. Select Survey from the select box on the right side of the “add content” screen.

3. Click .
4. Select the survey from the list of available created surveys by clicking on it.

5. Click .
6. Click .
7. If you need to add a new survey, click the button and create the survey just as you would an assessment.
